The Right Design, Quality, Color and Finish
At the Right Price

Malarkey continues our tradition of innovatively designed, rigorously tested roof edge systems with Endura™ Edge RP. It complements your building’s natural aesthetics, with no exposed fasteners or unsightly cover plates to detract from the look. The Raised Profile design acts as a gravel stop and directs water runoff to scuppers and downspouts to control exterior wall staining.

Endura™ Edge RP also features dual attachment points on both the face and roof deck, for added flexibility when accommodating roof irregularities. Available in an easy snap-on version or a crimp-on version for installers who prefer a more traditional approach, Endura™ Edge RP reduces installation time and labor costs.

Try the well-designed, competitively-priced Endura™ Edge RP products and see how Malarkey can help deliver your project ON TIME AND ON BUDGET.

High Quality
- Carefully designed and ANSI/SPRI/FM 4435/ES-1 tested to comply with the International Building Code
- No exposed fasteners or unsightly cover plates to mar the building’s aesthetics
- Warranties match applicable NDL terms/conditions

Affordable
- Decreased labor costs due to easy installation
- Available in a wide range of standard colors and finishes

Easy Installation
- No need for stripping-in or heat welding that are typical with other systems
- Manufactured in 12' lengths with pre-punched fastening holes in the galvanized waterdam to ensure correct fastener placement and spacing
- Prefabricated miters and accessories ensure a proper fit and prevent the need for any field fabrication

Since 1956, Malarkey Roofing Products has operated as a family owned, professionally managed, privately held company, headquartered in Portland, OR.
