## **Malarkey Roofing Products® Offers Limited Lifetime Warranty for Scotchgard™ Protector Algae Resistant Shingle Systems**

PORTLAND, Oregon - Malarkey Roofing Products®, the premier North American building materials manufacturer, now offers a Limited Lifetime Warranty for Scotchgard™ Protector Algae Resistant Shingle Systems. Based on decades of proven performance in the market, Malarkey has taken an additional step to assure homeowners that the beauty of their roof will be protected against black streaks. As part of the shingle warranty, Malarkey now warrants its premium line of shingles featuring Scotchgard™ Protector, backed by 3M, against unsightly black streaks caused by the growth of algae for the lifetime of the shingles, improving upon its previous warranty to homeowners. The Limited Lifetime Warranty for Scotchgard™ Algae Resistant Shingle Systems, backed by 3M, is part of Malarkey's Limited Lifetime Warranty to homeowners on its shingle products.

"Our roofing products are designed for performance with leading technologies," said Jim Fagan, Chief Executive Officer and President of Malarkey Roofing Products®. "We have confidence in the contents and construction of our shingles, which we share in the warranties we extend to our customers," he added.

In partnership with 3M who pioneered the science of algae protection, Malarkey has produced and warranted algae resistant roofing products since 1994, longer than any other manufacturer in the roofing industry. In the current steep slope product catalog, Malarkey offers several shingle lines featuring Scotchgard™ Protector: Legacy® and Legacy® XL - laminated architectural shingle lines, and Windsor® and Windsor® XL - heavyweight, designer shingle lines. All four shingle lines are made with polymer modified asphalt, offer Class 4 impact resistance, and offers optional Scotchgard™ Protector algae resistance for lasting protection against black streaks which helps preserves the beauty of the home.

Malarkey also offers a specialized online training program for Certified Residential Contractors to become a Scotchgard Protector Shingle Sales Specialist. This program helps contractors educate homeowners on a residential roofing system that provides long-term protection from algae growth.
