- Twelve-ft. lengths save 20% to 40% in material handling costs
- Roofing plies bond through the offset openings in the flange
- Slotted holes ensure correct fastener placement
- Wide variety of colors available
- Warranties match applicable NDL terms and conditions
- Tested to comply with the IBC

ENDURA™ EDGE TG

PRODUCT USE

Endura™ Edge TG has a continuous pattern of offset openings in the flange that allow consecutive layers of roofing plies to be fused together, creating a weathertight barrier against wind and water.

COMPOSITION & MATERIALS

Endura™ Edge TG fascia covers are manufactured of 24 ga. steel and .040" aluminum, coated with Kynar 500® finish, and available in many popular colors.

APPLICATION

Installation instructions are available at WWW.MALARKEYROOFING.COM, or by contacting our Technical Services Department.

WARRANTY

Endura™ Edge TG is offered with warranties in varying length and wind speeds that match the terms and conditions offered in the applicable Malarkey Materials and Labor Warranty (NDL). For non-NDL applications this product is warranted against manufacturing defects for a period of ten (10) years. A 30-year Kynar 500® finish warranty is included on coil-coated standard colors. Custom post-coated Kynar 500® colors are available with an included 10-year Kynar 500® finish warranty or a 20-year Kynar 500® finish warranty is available upon request. Contact your roofer, local distribution center, or Malarkey for full details. See below for TECHNICAL ASSISTANCE contact information.

Endura™ Edge TG and other Malarkey products are available throughout North America and Pacific Rim countries. Visit WWW.MALARKEYROOFING.COM for additional product information and availability.
