

VISTA™

FEATURING

SUSTAINABLE POLYMER
MODIFIED ASPHALT
TECHNOLOGY

Envision the future of asphalt roofing.

VISTA™

The Vista™ architectural shingle line utilizes Nexgen™ polymer modified asphalt, made with polymers from repurposed materials. The Vista™ features Class 3 impact resistance, exceptional granule adhesion, and dependable protection in extreme weather conditions.

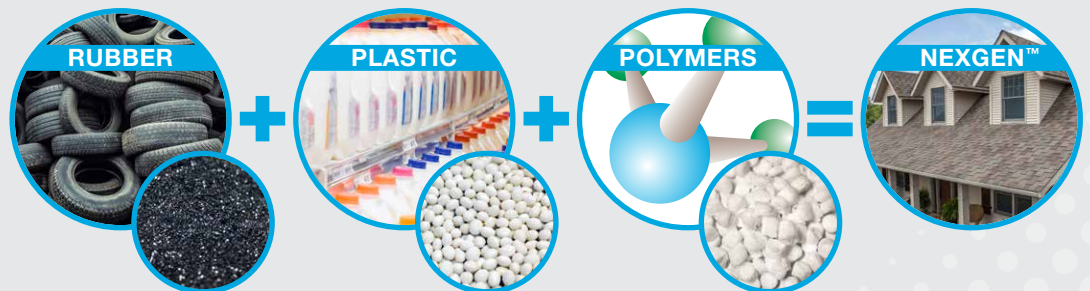

Malarkey uses repurposed materials for shingles featuring Nexgen™ polymer modified asphalt.

For every ton of recycled plastic or synthetic rubber used, 4 barrels of oil and 7.4 cubic yards of landfill space are saved. Additionally, for every pound of recycled tire rubber used, one pound of carbon dioxide is prevented from being released into the atmosphere.

An average-sized roof* with Nexgen™ asphalt shingles feature roughly 5.5 tires and 350 milk jugs.

*An average-sized roof for these purposes is approximately 25 squares.

DISCLAIMER: Sample pieces or photographs of shingles may not accurately represent the true color or variations of color blends that will appear on the roof. Before installation, five or six shingles should be laid out and reviewed for conformity to desired color level. If color levels are unsatisfactory, advise your dealer before proceeding with installation. Colors and specifications subject to change without notice. Shingle colors not available in all regions. Limited warranties carry terms and conditions. Please contact your local Malarkey representative for color availability and further information. See Malarkey's Shingle and Accessory Warranty for details. This version supersedes all previous versions. Rev. 7/18
